DATA WRANGLERS

At Data Wranglers, we believe success thrives on teamwork. Our club unites diverse talents to collaborate, create, and grow. Whether you're honing skills, sharing ideas, or enjoying camaraderie, every activity harnesses collective effort. We value every voice, fostering an inclusive space where creativity flourishes. Join us to explore opportunities, spark innovation, and achieve more together — because collaboration is the key to shared success at Data Wranglers.

WRANGLE^X

A major highlight of the day was the launch of the official Data Wranglers website — a comprehensive platform designed to provide students with academic resources, project showcases, and updates on club activities. The unveiling symbolised our commitment to making learning accessible and engaging.

The celebrations continued with the much-awaited release of the Data Wranglers magazine. This annual publication brought together thought-provoking articles, success stories, and creative pieces contributed by students and faculty. Each page reflected the hard work, talent, and innovation that define our community.

ENGINEERING DAY

CELEBRATIONS

14 SEPT 2K24

No festivity is complete without a touch of sweetness! The gathering came alive with a cheerful cake-cutting ceremony, bringing together faculty members, students, and guests. Laughter and photographs filled the room, making the moment a cherished memory

One of the most heartfelt moments of the Engineers' Day 2024 celebration was the felicitation ceremony for our faculty mentors. The success of the Data Wranglers club owes much to the unwavering support and guidance provided by our professors, who continuously encourage us to think bigger, work harder, and explore beyond the classroom.

During the ceremony, each faculty member was invited on stage to receive a token of appreciation, presented amidst resounding applause from students and guests. Their dedication has been instrumental in shaping not only the initiatives of the club but also the skills, confidence, and character of every member.

Our mentors have consistently gone the extra mile — offering insights on projects, guiding event planning, and fostering a culture where curiosity and creativity thrive. They have been pillars of strength, motivating us to take risks, embrace challenges, and transform our ideas into meaningful action.

The felicitation wasn't merely a formal gesture; it was a heartfelt expression of gratitude from the entire student body. It symbolized the deep respect we hold for our teachers, who balance academic excellence with personal encouragement, helping us grow into capable and responsible individuals.

As we presented mementos and shared words of thanks, the atmosphere was filled with warmth and mutual admiration. The ceremony served as a reminder that behind every achievement of the Data Wranglers stands a team of faculty members whose belief in our potential continues to inspire us to aim higher.

APPLIED PYTHON TRAINING SESSION

07 DEC 2025

Wranglex began with a bang—a full-on session on Applied Python by Jyothi Swaroop. His energy, teaching style, and huge student following pulled in a crowd like no other. The best part? Under his guidance, students built a YouTube Downloader project in just one day. That moment showed everyone that learning isn't just about listening, it's about creating, experimenting, and seeing your ideas come alive.

PRODUCTION 1

DESIGN THINKING- CRITICAL THINKING

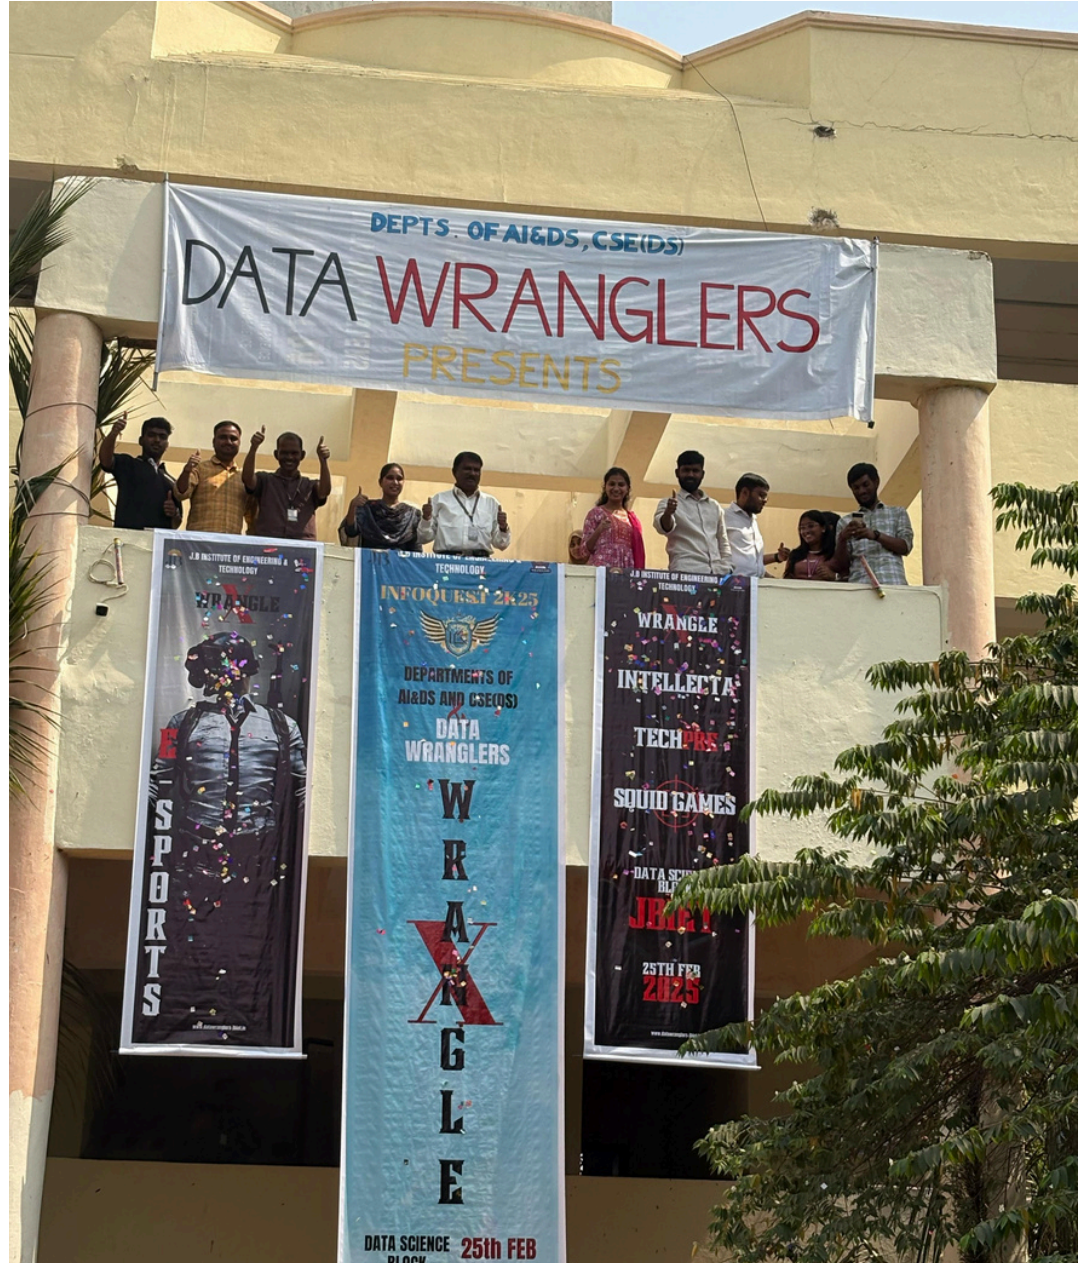

17 FEB 2025

Next came a session that was as motivational as it was practical. Mr. Gowrav Reddy, the CMO of Cropwings, spoke about Critical and Design Thinking. His story from struggles to becoming part of a successful startup connected deeply with students. The way he combined entrepreneurial lessons with personal experiences made the audience rethink how they handle challenges. Many walked out not just inspired, but also determined to chase their own goals.

INFOQUEST 2K25

09
MARCH
20
25

Infoquest 2K25 wasn't just an event, it was a festival. With its mix of tech battles, fun challenges, and gaming competitions, it brought the entire campus together in one electrifying atmosphere. The event featured tech showdowns like **Intellecta**, the ultimate quiz battle, and **TechFree**, a premier competition for technical presentations. To balance intellect with thrill, non-tech events like **Squid Games**, a high-energy survival challenge, and e-sports tournaments in BGMI and Free Fire added excitement. Infoquest 2K25 became a landmark celebration of **innovation, teamwork, and talent**. It showcased the diverse spirit of Data Wranglers where both brains and passion shine.

CHAMPIONS OF THE YEAR

INTELLECTA

(Quiz Showdown)

TEAM MAVERICKS

CREATIVITY & INNOVATION

5 APR 2025

Mr. Yasasvi Mandapati, the young and dynamic founder of Matrixo, stood out during the Wranglex seminar as a shining example of entrepreneurship at an early age. His journey of founding Matrixo, despite being so close in age to the students, demonstrated that creativity and ambition have no age limits. Yasasvi's story was both relatable and motivating, as he shared how taking the first step mattered more than waiting for the perfect moment. His straightforward message—"just start"—resonated deeply, inspiring students to turn their ideas into action without hesitation.

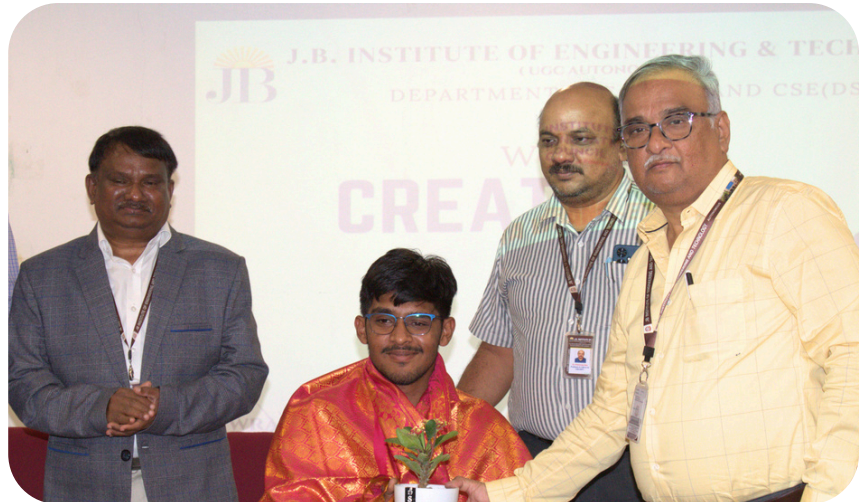

PRODUCTION 3

CREATIVITY & INNOVATION

25 APR 2025

Mr. Shiva Ganesh Talikota, founder of Smartzy Pvt. Ltd., captivated the audience during the final Wranglex seminar by sharing his entrepreneurial journey with remarkable passion. As a young innovator himself, Shiva Ganesh connected effortlessly with the students, making his achievements feel attainable. His emphasis on creativity as a driving force behind innovation encouraged students to think beyond conventional boundaries. His inspiring words proved that age is no barrier to starting a business, and many students left the session energized, eager to explore their own creative ventures.
