About JBIET

Spread across huge green and clean cinematic campus, The J.B. Institute of Engineering and Technology is a UGC Autonomous Institute accredited by NAAC, approved by AICTE & permanently Affiliated by JNTU, Hyderabad. JBIET is one among the best 10 Engineering Colleges of the Telangana State, India, continues to strive to impart technical and professional education of very high standards. The institute is also the most preferred institution for aspiring students and their parents and has earned itself the reputation of being a centre of academic excellence in many ways over the years.

The Placement record of JBIET over the years is a proof of our right efforts in enabling the best in the class engineering, technical and professional education to aspirants.

About Department of ECE

Department - Vision and Mission

VISION:

To be a guiding force enabling multifarious applications in Electronics and Communications Engineering, promote innovative research in the latest technologies to meet societal needs.

MISSION:

M1: To provide and strengthen core competencies among the students through expert training and industry interaction.

M2: To promote advanced designing and modeling skills to sustain technical development and lifelong learning in ECE.

M3: To promote social responsibility and ethical values, within and outside the department

The Department of ECE is best known for its talented and dedicated professionals renowned for their excellence in various specializations in the field of Electronics & Communication Engineering. The Department is provided with state of the art technological tools incorporated in all the existing laboratories. For the last ten years, the students of ECE, who walked out of the portals of the institute successfully, holding their degrees, were immediately inducted into the MNCs of high reputation in India & abroad. The intake of B.Tech Program is 120 and of M.Tech program in VLSI System Design is 12. Department of ECE is having professional societies like IETE,IEEE.

About the Event:

Smart Innovation Hackathon is the Internal Hackathon 2023, organized on 26th and 27th September, to select/ nominate best teams for the Smart India Hackathon (SIH) by MHRD. Each team can have 6 members including male and female students. Students should gather at the venue by 9:30 AM. The registered participants can verify their registration at the registration Desk. ID Cards, notepads and pen

will be distributed along with team number card at the desk. Teams will be selected from Hardware and Software Editions. Winners of Hardware Edition and Software edition will be awarded with cash prize. The valedictory session will be chaired by Ms. Rohini Naidu, Ms. Universe Integrity. The Students association Clique, Echos, Codehub, SAC will work together with IEEE Students to make the event grand success

About the Problem Statement

The Problem statements will be chosen from official portal of SIH 2023. There are problem statements for both hardware and software. Links will be provided to the participants.

Judging Process

Smart Innovation Hackathon 2023 will be evaluated in 4 stages. The description of the evaluation process is given as follows:
Stage 1: Problem Definition and Ideation
Stage 2: Development and Implementation
Stage 3: User Experience and Future Viability
Stage 4: Presentation and Impact Assessment

Chief Guest

Ms. Rohini Naidu

on

Smart Innovation Hackathon 2023

Date: 26th -27th September, 2023

Report Prepared by:

Dr. Anindya Jana,

&

Mr Shravan Kumar

About the Event:

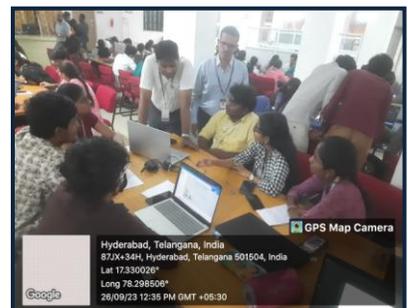

Smart Innovation Hackathon is the Internal Hackathon, which was organized to select/ nominate best teams for the Smart India Hackathon (SIH) by MHRD. Smart Innovation Hackathon continued for 2 days in JBIET Campus. A total 35 teams participated for the Hackathon where each team contained 6 members including male and female students. The Hackathon Started on 26th September, 2023 at 9:45 AM. Students started gathering at the venue by 9:30 AM. The registered participants were re-verified about their registration at the registration Desk. ID Cards, notepads and pen were distributed along with team number card at the desk. Keeping the time issue in consideration, there was no official inauguration event for Hackathon. At 10:00 AM, the judges and organizing team entered the venue. Judges elaborated the judging process at the beginning itself. There were 5 rounds of evaluation in these two days. Students were provided with lunch, snacks, dinner. A total 15 teams were selected from Hardware and Software Editions. Winners of Hardware Edition and Software edition were awarded with cash prize. The valedictory session was chaired by Ms. Rohini Naidu, Ms. Universe Integrity. The Students association Clique, Echos, Codehub, SAC worked together to make the event grand success.

About the Problem Statement

The Problem statements were chosen from official portal of SIH 2023. There were problem statements for both hardware and software.

We had provided links to the participants.

Judging Process

SIH 2023 at JBIET- Hyderabad was evaluated in 4 stages. The description of the evaluation process is given as follows:

Stage 1: Problem Definition and Ideation

Problem Statement (10 marks): The clarity and relevance of the identified problem, ensuring it aligns with the theme of the hackathon.

Novelty of the Idea (10 marks): The uniqueness and innovation embedded in the proposed solution, pushing boundaries beyond conventional approaches.

Complexity (10 marks): Assessing the technical challenges and intricacies involved in the project, indicating the depth of problem-solving.

Clarity (10 marks): How well the idea is communicated, ensuring judges and participants alike can grasp the concept effortlessly.

Execution (10 marks): The initial steps taken to bring the idea to life, demonstrating the team's commitment and understanding.

Stage 2: Development and Implementation

Execution (50 marks): Evaluating the actual implementation of the idea, including the functionality, technical proficiency, and overall completion of the project.

Stage 3: User Experience and Future Viability

Execution (20 marks): A continued assessment of execution with a focus on refinement and improvements made during the development phase.

User Experience (10 marks): How intuitive and seamless the solution is for end-users, emphasizing user-centric design.

Potential for Future Work Progression (10 marks): Identifying scalability and future development prospects, ensuring the project has room for growth and adaptation.

Practicability (10 marks): Assessing the practicality of the solution in real-world scenarios, considering feasibility and usability.

Stage 4: Presentation and Impact Assessment

Innovation in Proposed Idea (10 marks): The creativity and originality demonstrated in the presentation, showcasing a fresh perspective.

Feasibility of Implementation (10 marks): Assessing the practical implementation of the proposed idea in a real-world context, considering resource requirements and constraints.

Sustainability (10 marks): Examining the long-term viability and environmental impact of the solution.

Practicability (10 marks): Ensuring that the presented solution is not only innovative but also realistic and applicable.

Scale of Impact (10 marks): Evaluating the potential reach and influence of the project, considering its broader impact on the community or industry.

Jury Panel:

	Name	Branch	Category	Evaluation Round-1 (Mentoring) 26 Sept 2023 11 AM to 12 Noon	Evaluation Round-2 26 Sept 2023 12.30P M to 1.00 PM	Evaluation Round-3 26 Sept 2023 4.00PM to 5.00 PM	Evaluation Round-4 26 Sept 2023 8.00 PM to 9.00 PM	Evaluation Round-5 (Presentation) 27 Sept 2023 12 Noon to 1.00 PM
