

REPORT ON SEMINAR

INTELLECTUAL PROPERTY RIGHTS

INTRODUCTION:

The Department of Electrical and Electronics Engineering organized a seminar on "Intellectual Property Rights" on October 7, 2023. The event was conducted virtually, providing an opportunity for students, faculty, and professionals to gain insights into the world of intellectual property rights (IPR). The seminar aimed to highlight the importance of IPR in engineering and provide valuable knowledge on patents, copyrights, trademarks, and their practical applications.

SEMINAR HIGHLIGHTS:

Mr.N.Nagarajan, a renowned expert in the field of intellectual property rights, served as the resource person for the seminar. He covered a wide range of topics during his presentation:

- **Introduction to Intellectual Property Rights:** Mr.N.Nagarajan began by introducing the concept of intellectual property rights and explained their significance in various industries, including engineering. He emphasized the role of IPR in protecting innovation and fostering creativity.
- **Understanding Patents, Copyrights, and Trademarks:** The seminar delved into the specifics of different types of intellectual property rights, including patents, copyrights, and trademarks. Mr.N.Nagarajan provided a comprehensive overview of the distinctions between these forms of protection, ensuring that attendees gained a clear understanding of each.
- **Importance of IP Rights in Engineering:** Highlighting the relevance of IPR in the field of engineering, Mr.N.Nagarajan elucidated how engineers and innovators can leverage intellectual property rights to safeguard their inventions and innovations. He showcased real-world examples to underscore the importance of IPR in engineering practices.
- **Case Studies:** The seminar included case studies that illustrated the practical applications of intellectual property rights. These real-life examples helped attendees grasp the complexities of IPR in various contexts and industries.
- **Practical Applications:** Mr.N.Nagarajan concluded his presentation by discussing practical strategies for protecting intellectual property. He offered insights into the patenting process, copyright registration, and trademark filing, empowering participants with knowledge that they could apply in their own projects and endeavors.

CONCLUSION:

The "Intellectual Property Rights" seminar organized by the Department of Electrical and Electronics Engineering was a valuable and informative event. Attendees gained a deeper understanding of the significance of IPR in the field of engineering and its practical applications. Mr.N.Nagarajan's expertise and engaging presentation style made the seminar both educational and enjoyable. The department is committed to fostering awareness of intellectual property rights among its students and faculty, and this seminar was a significant step in that direction.

The department expresses its gratitude to Dr.P.Duraipandy, who served as the convenor, Dr.J.Kartigeyan, who acted as the coordinator, and Mr.N.Nagarajan for their contributions that led to the success of this seminar. The knowledge acquired during this event is sure to positively impact the participants' future endeavors and foster innovation and creativity within the field of electrical and electronics engineering.

CIRCULAR

Dear Students,

The Department of Electrical and Electronics Engineering is delighted to invite all II, III, and IV-year students to a seminar on "Intellectual Property Rights" scheduled for October 6, 2023, at 11:00 A.M.

Seminar Details:

- **Title:** Intellectual Property Rights
- **Date:** October 6, 2023
- **Time:** 11:00 A.M.
- **Venue:** Placement Seminar Hall (On-Campus)
- **Mode:** Online (Virtual Event)

We are thrilled to announce that our esteemed Resource Person for this seminar is **Mr. N. Nagarajan, B.E., M.E., (PhD)**, Technical Director & Lead Patent Analyst at NSKD Techno Research and Innovation Solution. Mr. Nagarajan brings a wealth of knowledge and experience in the field of Intellectual Property Rights, and his insights are sure to be invaluable.

Agenda for the Seminar:

- Introduction to Intellectual Property Rights
- Understanding Patents, Copyrights, and Trademarks
- Importance of IP Rights in Engineering
- Case Studies and Practical Applications
- Q&A Session with Mr. N. Nagarajan

This seminar is a fantastic opportunity for you to gain valuable knowledge about Intellectual Property Rights, a crucial aspect of engineering and innovation. It will help you understand how to protect your ideas and creations in the ever-evolving world of technology.
