

REPORT ON WEB CASTING DUTY IN GENERAL ELECTIONS 2023

DATE: 29 & 30TH OCTOBER 2023

LOCATION :- CHEVELLA & MOINABAD.

TOTAL PARTICIPANTS :- 60.

Date: October 29-30, 2023

Introduction: The National Service Scheme (NSS) unit at J.B. Institute of Engineering and Technology (JBIET) took on the crucial responsibility of webcasting during the General Elections of 2023. This initiative aimed to ensure transparency and accessibility in the electoral process across various villages.

Roles and Responsibilities:

1. **Preparation and Planning:** In anticipation of the General Elections, NSS volunteers underwent rigorous training sessions to familiarize themselves with webcasting equipment, procedures, and ethical guidelines.
2. **Deployment to Multiple Villages:** NSS teams were strategically deployed to various villages, where they set up webcasting equipment
3. at designated polling stations. Each team was responsible for capturing and streaming the voting process in their assigned location.
4. **Live Streaming Operations:** On the election days, October 29th and 30th, NSS volunteers commenced live streaming of the voting activities, ensuring a real-time broadcast of the electoral proceedings. This included capturing the opening of polling booths, the voting process, and the subsequent counting of votes.
5. **Technical Support and Connectivity:** NSS teams ensured seamless internet connectivity at each location to facilitate uninterrupted live streaming. Technical support personnel were stationed to address any unforeseen issues promptly.

6. **Collaboration with Election Authorities:** Close collaboration was maintained with local election authorities to adhere to official guidelines and procedures. NSS volunteers
7. coordinated with election officials to enhance the efficiency and transparency of the electoral process.

Impact and Outcomes:

1. **Enhanced Electoral Transparency:** The webcasting initiative significantly increased the transparency of the electoral process. Residents and stakeholders in various villages had the opportunity to observe and verify the integrity of the elections.
2. **Remote Accessibility:** The live streaming of voting activities ensured that citizens who couldn't physically be present at the polling stations could still actively participate by remotely witnessing the electoral proceedings.
3. **Community Engagement and Awareness:** NSS volunteers engaged with local communities, answering queries, and providing information about the election process. This community-centric approach contributed to increased awareness and understanding of the democratic process.

Conclusion: The NSS unit at JBIET, through its webcasting duty during the General Elections of 2023 in various villages on October 29th and 30th, demonstrated a commitment to promoting transparency and civic engagement. The initiative played a pivotal role in making the electoral process accessible and accountable to residents in remote locations, fostering trust in the democratic system.
