Start-up 1: Kay9 Interiodomestic Corporate Interiors, Hyderabad

Mr. PVR Vagesh Datt is a civil engineering department alumnus of JBIET, completed his degree in 2019. He started his firm in the year 2019 in JBIET campus as a part time entrepreneur. He is dynamic and results driven with an accomplished track record of providing consultancy, interior design support and helps to renovate the building with modern creative design. He attended the bootcamp training programs organized by the JBIET entrepreneurship development cell. He was an active member in institute innovation cell and participated in various activities of IIC. His feedback is "The EDC events organized and faculties of JBIET motivate him to starting of the firm". He has much interest on Interior design. He tells the home interiors are a reflection of people personality. His idea is to make home should be something that family take pride in and love to spend time in. His efficient, customized home interior designs incorporate customer needs in every nook of home. He hires dedicated home interior designers work with you tirelessly to tie your style with their design expertise, creating the perfect interior design plan. They will also ensure that the plan is executed using the materials of the highest standards. In addition to great interior design ideas, you can expect our unwavering support and service for years to come because all our products come with up to 10 year warranty. He proved the quality work and complete in the scheduled time.

Start-up 2: Sri Maauli Constructions and Developers, Adilabad

Sri Maauli Constructions and Developers have a branch office in Hyderabad with the idea of extending the business in Hyderabad city. The firm in JBIET campus is started by Mr.R.Vedanth, an alumnus of JBIET. He completed his B.Tech degree in civil engineering in 2017 and started the company in their hometown. He is energetic and skilful student during his college days. He is interested in entrepreneurship and participated in all the activities about starting a firm, organized by JBIET. In a feedback, he mentioned that the knowledge gained in JBIET is very helpful for him during the start of the firm. He also mentioned the motivation of JBIET civil department faculties helps to handle the hard times of his career and life. He proved his talent in his final year project by utilizing the advanced technology in concrete technology. He is good in constructing independent houses with more advanced technology and completes the work with less cost and time. He has experience in the construction of commercial buildings of 2 floors and received the good feedbacks from the customer. In future, he planned to get some government projects. JBIET gave permission to utilize the start-up office provided to him in the EDC cell and allow him to access it whenever required.

Start-up 3: Devi Enterprises, Hyderabad

Devi enterprises, the firm is started by Mr. Padiyar Narpathlal. He is an alumnus of JBIET and completed his bachelor degree in 2020. He is young, enthusiastic and a social activist from Hyderabad. He completed his degree under Civil department of JBIET. He was actively organized many events in department and EDC events in JBIET. It teaches him the leadership quality and gave the experience of customer relation maintenance. His family is involved in textile business in Hyderabad city and he plans to expand it to the interior parts of Telangana. He selects the JBIET as a good option for that because it is in the middle of city and the rural areas of Vikarabad and Chevalla constituencies. So, he communicated the JBIET EDC and shared his plan. JBIET management gave permission to setup his office in the campus. It acts as a nodal office for his firm and meetings are arranged with the clients in this office. JBIET also allowed utilizing the conference halls if it is required in non-academic days. The firm has a fashion powerhouse that is also building apparel for new age homes; The firm's functioning are apparel manufacturing and distributing. He improves his business by introducing technological advancement in the pollution free manufacturing by transforming water management policies. The firm is a denim pioneer that is a trailblazer in advanced materials; A wearable technology manufacturer also delivering state-of-the-art engineering solutions.

Start-up 4: Lasya Garments, Karimnagar

Lasya Garment is a retailer of kids garments, readymade shirt & school uniform. It was started by Mr. P. Ajakumar, an alumnus from EEE Department, JBIET. He completed his degree in 2019 batch. Immediately after his graduation, he started the Garment. He attended the events organized by EDC regularly that motivates him to start the firm. He hold an office in JBIET campus for organizing meetings, business development, getting guidance and exploring new business ideas. He has good communication with MBA department faculties, Dr. Rajesh Perhad, HOD-MBA and Dr. P. Subramaniam, Professor- MBA and getting advice to improve the business and handle the issues with employees. He has planned to construct a manufacturing unit near Moinabad to improve the business. JBIET management has supported him by providing facilities like providing training to the computer designers of his firm without any fees. JBIET gave permission to him to use the lab 134 of computer science and engineering department for designing purpose with the prior approval from management. JBIET provides resources like hardware, network, design IPR guidance and other required things. It is helpful to develop his business in multiple stages.

Start-up 5: Homecaptures, Hyderabad

Homecaptures is a new start-up firm that provides support to the areas like interior design, waste water management, green building and ancient building renovation. It was started by Mr.S.Abhishek, an alumnus from civil department of JBIET. He completed his degree in 2016 and worked as a temporary employee in a construction company till 2018. Then, he planned to start an interior decoration related firm with his friends. He discussed with the EDC in-charge regarding that and got permission to utilize an office in JBIET campus. His relationship with the JBIET faculties motivates him to start the firm. He believes that the setting of firm in JBIET campus is an added advantage. JBIET faculties provide technical advice on recent technologies about the interior design. JBIET management also gave permission to get assistance from the faculties of JB Architecture College, a sister concern of JBIET. He utilized that opportunity and made the company profit around 5 Lakhs within 2 years. Along with interior design, his firm supports advanced road construction, ports development and laying railway lines. He has a team of good architect and completes the assigned projects within the mentioned time period. He received the good feedback from customers.
