- To recruit teachers with a flair and competence in research.
- To provide seed money for faculty to undertake minor research works
- To equip laboratories with relevant modern equipment, software and library resources to suit research demands.
- To forge into alliances with prominent research groups for collaborative work.
- To apply for external research funding from private and public agencies in focused frontier areas.
- To create inter-disciplinary research groups for prospective applied research.
- To approach industry for setting-up of research laboratories on campus for the benefit of faculty and students
- To provide faculty with academic/sabbatical for undertaking research work/PHD work
- To identify the thrust areas for research in various disciplines
